

CANVAS® AND TURNINGPOINT®

The integration with Canvas® allows for Turning Technologies users to leverage response devices in class to easily collect student achievement data. Very simply one can import from Canvas a participant list of students into TurningPoint and then export assessment data into Canvas.

This document covers the following topics:

- Downloading a Participant List**
- Using a Downloaded Participant List**
- Updating a Participant List**
- Exporting a Session to Canvas**
- Contact Us**

Downloading a Participant List

Users can import participant information from Canvas.

- 1 Open TurningPoint and click the **Manage** tab.
- 2 Click the *Participant List* drop-down menu and select **New**.
The *Create Participant List* window is displayed.
- 3 Select **Download from Integration** and click **Create List**.
The *Connect to Integration* window is displayed.
- 4 Select **Canvas** from the *Integration* drop-down menu and enter the **Server Address** in the box provided. The Server Address is the URL of the registration link normally residing in the course's **Modules** section. Depending on your institution's application protocol, enter **http://** OR **https://** before the URL.
- 5 Click **Connect**.
The *Canvas Log In* window opens.
- 6 Enter your Canvas **Username** and **Password** and click **Log In**.

The *Import Participant List* window is displayed.

- 7 Select the course(s) in which the participant list(s) is to be imported and click **Import**.
The participant list now appears in the left panel.

8 Click **OK**.

TIP

The imported participant list contains the following information: Device ID(s), License Status, First Name, Last Name, User ID and Email.

Using a Downloaded Participant List

A participant list from Canvas can be loaded into TurningPoint to track participant results.

- 1 Open TurningPoint.
- 2 From the Polling tab, select the **participant list**, the **content file** and the **polling environment**.

WARNING

A Canvas participant list must be loaded prior to running a session.

- 3 **Run** and **save** the session.
- 4 Close the polling environment to return to the TurningPoint Dashboard.

Updating a Participant List

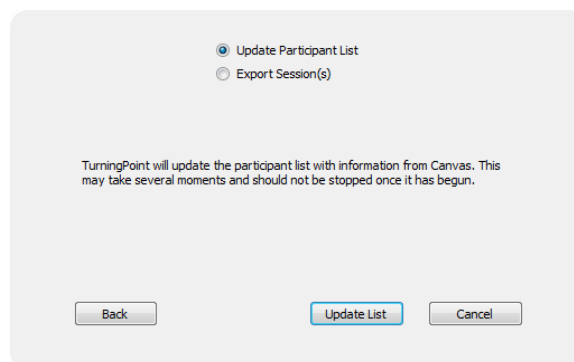

Participant lists can be updated with the latest participant information from Canvas through the export function in Results Manager.

- 1 Open TurningPoint and click the **Manage** tab.
- 2 Select the participant list and click **Results Manager** in the lower right corner of the window.

The screenshot shows the TurningPoint software interface with the 'Manage' tab selected. The interface includes a sidebar with a 'Participant List' dropdown and a main content area titled 'Participant List Overview'. The overview displays the name of the selected list, its creation and modification dates, and the number of participants and sessions. Below this is a 'Preview' table with columns for Device ID(s), Sessions, Last Name, Gender (Team), Demo, First Name, and User ID. At the bottom of the overview area are buttons for 'Edit Participants' and 'Results Manager'.

Device ID(s)	Sessions	Last Name	Gender (Team)	Demo	First Name	User ID
14076E	0 of 0	2	Male	1	Participant	6227
811D8	0 of 0	5	Male	2	Participant	6063
FFF0E4	0 of 0	1	Female	1	Participant	6057
811B3	0 of 0	4	Female	2	Participant	6068
				1		

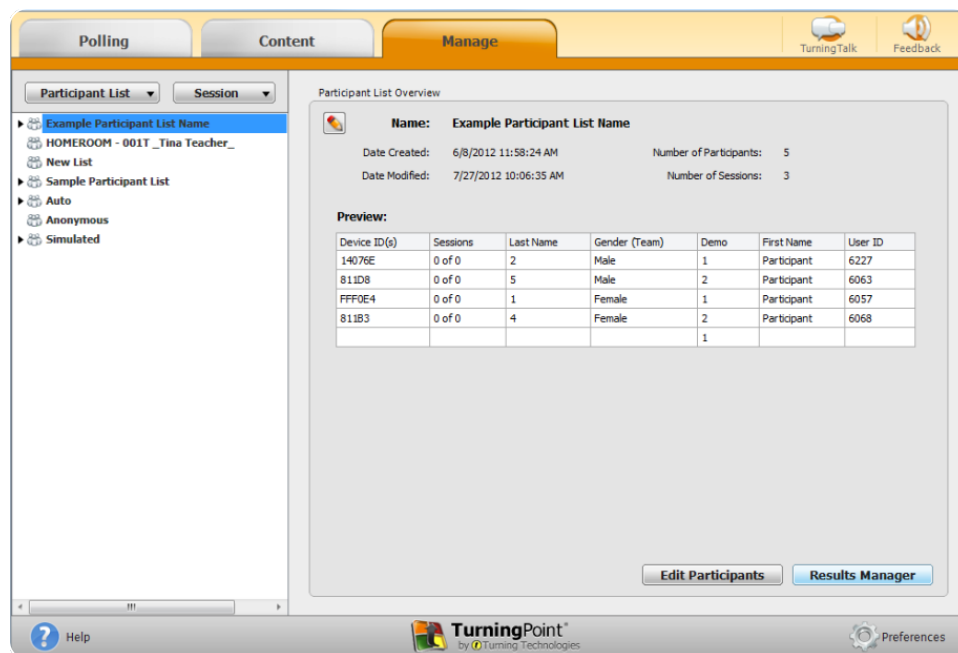

- 3 Click **Integrations**. The *Connect to Integration* window is displayed.
- 4 Select **Canvas** from the *Integration* drop-down menu and enter the **Server Address** in the box provided. The Server Address is the URL of the registration link normally residing in the course's **Modules** section. Depending on your institution's application protocol, enter **http://** OR **https://** before the URL.
- 5 Click **Connect**.
- 6 At the *Connect to Integration* window, enter your Canvas **Username** and **Password** and click **Login**.
The *Update with Integration* window is displayed.
- 7 Select **Update Participant List** and click **Update List**. The participant list is updated.
- 8 Click **Close**.

Exporting a Session to Canvas

Sessions can be exported to Canvas via Results Manager.

- 1 Open TurningPoint and click the **Manage** tab.
- 2 Select the participant list and click **Results Manager** in the lower right corner of the window.

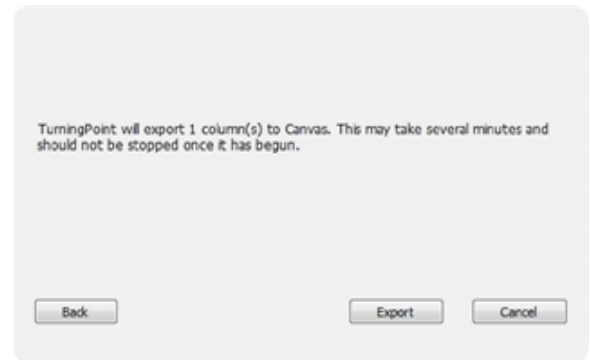

- 3 Click **Integrations**. The *Connect to Integration* window is displayed.
- 4 Select **Canvas** from the *Integration* drop-down menu and enter the **Server Address** in the box provided. The Server Address is the URL of the registration link normally residing in the course's **Modules** section. Depending on your institution's application protocol, enter **http://** OR **https://** before the URL.
- 5 Click **Connect**.
- 6 At the *Connect to Integration* window, enter your Canvas **Username** and **Password** and click **Login**.
The *Update with Integration* window is displayed.

- 7 Select **Export Session(s)**.
- 8 Select the column(s) to be exported and click **Export**.

Optionally, select the **Active Participants Only** option to include only participants who responded to at least one question within the session.

The *Export to Integration* window is displayed.

- 9 Click **Export**.

Next Steps

Login to your Canvas account to view the exported results data.
